If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

EXAMINER'S AMENDMENT

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because: the declaration filed 05/06/2004 is missing the third inventor's, Minnie Ho, signature.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 17 line 1, "tangible" has been deleted.

In page 13 paragraph 0026 of the specification "For example, a machine-readable medium may include read only memory (ROM); random access memory (RAM); magnetic disk storage media; optical storage media; flash memory devices; electrical, optical, acoustical or other form of propagated signals (e.g., carrier waves, infrared signals, digital signals, etc.), and others" has been amended to --For example, a machine-readable medium may include read only memory (ROM); random access

Art Unit: 2619

memory (RAM); magnetic disk storage media; optical storage media; flash memory devices; and others.--

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: Independent claims 1, 8, 14 and 17 are allowed because the prior record fails to teach or fairly suggest a system or method including monitoring a wireless channel after completion of a transmission for a clear channel condition and beginning a timeout period responsive to determining a presence of the clear channel condition. While Jandrell (US 6,459,704), the closest prior art of record, teaches in figure 7 monitoring for a clear channel at step 602, the monitoring at step 602 is preformed before transmission and not after the transmission is complete in order to determine when to start a timeout period.

Furthermore, the deletion of electrical, optical, acoustical, and other forms of propagated signals as examples of a computer-readable medium in paragraph 0026 of the specification is being treated as an explicit act to remove such embodiments from the scope of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
